Terminal Disclaimer

1. The terminal disclaimer filed on 02/20/2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,629,318 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Claims 22-29 are allowable because the prior art fails to disclose or suggest the combination of a decoder buffer for receiving and storing encoded data packets in a plurality of access units each unit holding at least one data packet associated with a frame and a decoder. The decoder buffers comprising a **re-transmission buffer region** for storing a first data packet that will be needed by the decoder next wherein the decoder buffer, in response to a detection of a missing data packet request the data packet to be retransmitted, and a **non-re-transmission buffer region** comprising at least one access unit for storing a latest received data packet, the latest received data packet and the first data packet being different.

Claims 29-35 are allowable because the prior art fails to disclose or suggest the combination of a decoder, a display device, and a decoder buffer. A decoder buffer for receiving and storing encoded data packets in a plurality of access units each unit holding at least one data packet associated with a selected portion of the encoded streaming data. The decoder buffers comprising a **re-transmission buffer region** for
